

**All Plot Holders are to be aware there has been a number of Sheds/Boxes Broken into, this week on the Allotment Site**

On this occasion it seems no items have been taken, but until all Plot Holders have checked their sheds/boxes we will not know the true picture of any possible loss.

We ask that all Plot Holders please not to keep valuable items like lawn mowers, strimmer's and rotavators on your plots. We understand that it is impactable for every item to bring each visit to the allotment.

The pink & green containers are there for mowers, strimmer's and lawn mowers to be stored when not used for plot holders

The Committee are looking at a long-term solution to this major problem and as soon as we can update you on what we are able to do to prevent these issues happening again, we will let you know.

**Committee**
